

An interactive session on UPSC/APSC Exams was conducted by the PG Department of Geography at Pragjyotish College on 20th June 2023. The session aimed to provide students with comprehensive knowledge about the exams and offer valuable insights to help them prepare effectively. The event witnessed the participation of esteemed faculty members who delivered informative lectures on various aspects of the UPSC/APSC examinations.

Pradip Kalita, an experienced faculty member, began the session with his insightful lecture. He discussed the structure and pattern of the UPSC/APSC exams, emphasizing the importance of thorough preparation. Mr. Kalita elucidated the different stages of the examination process, including the preliminary, mains, and interview rounds. Furthermore, he shared effective study strategies, recommended reference materials, and highlighted essential topics to focus on for success in these competitive exams. His expertise and guidance instilled confidence in the students and motivated them to pursue their goals diligently. Jyoti Prashad Das, another distinguished faculty member, provided valuable insights into the syllabus and exam pattern of the geography optional subject, which is highly popular among aspirants. He discussed key topics, suggested relevant study resources, and discussed effective techniques for answer writing and time management. Mr. Das emphasized the significance of current affairs and advised students to stay updated with national and international events. His comprehensive lecture equipped the students with the necessary tools and strategies to excel in the examinations.

Bhirgu Kumar Nath, a respected faculty member, delivered an informative lecture on the history optional subject for the UPSC/APSC exams. He provided an overview of the syllabus, highlighting important themes and time periods that candidates should focus on. Mr. Nath shared valuable tips on note-making, utilizing authentic sources, and developing a conceptual understanding of historical events. Through engaging discussions and interactive examples, he encouraged students to develop a holistic approach to studying history and emphasized the significance of critical analysis in their answers. Tirthankar Sarma, another respected faculty member lectured upon optional subject for the UPSC/APSC exams. He covered essential topics such as microeconomics, macroeconomics, and

Indian economy. Mr. Sarma provided an in-depth understanding of economic concepts, theories, and their practical applications. He also highlighted the relevance of current economic issues and their impact on policymaking. His lecture inspired students to develop a strong foundation in economics and encouraged them to integrate real-world answers. The students gained a lot of knowledge and developed a wider perspective on the UPSC/APSC exams through these informative lectures. The faculty members' expertise and guidance provided the students with valuable insights, study strategies, and recommendations for reference materials. The interactive session undoubtedly contributed to the students' overall knowledge and will undoubtedly aid them in their exam pre
